Follow Fire-Lite Alarms:

Fire-Lite Alarms announces the launch of the latest chapter in its library of free tools: "Fire-Lite ECC" App!

Now available for download free-of-charge to iPad® devices through the Apple® iTunes App Store®, the App can serve as a sales tool for installers, as well as an invaluable training kit for end users.

Sectioned into four parts, the "Fire-Lite ECC" App educates users on the features and functionality of Fire-Lite Alarms' Emergency Command Center (ECC) products and components, as well as how they interconnect with one another.

We invite you to check out the "Fire-Lite ECC" App on the Apple® iTunes App Store® here.
Questions regarding the ECC App can be directed to Elizabeth Richards or http://www.firelite.com/eccapp.html. Technical inquiries on the Emergency Command Center should be directed to Fire-Lite Technical Support.

Free Tools to Help Expand Your Business
Did you know that Fire-Lite Alarms offers a library of free tools to not only manage a system, but also grow and promote your business? Whether its print collateral or software tools designed to assist you in the day-to-day business of selling and supporting fire alarm systems – we have it all!

ECC Engineering Specification Document Now Online   www.firelite-ecc.com
The ECC Engineering Specifications is a document that allows system specifiers (Architects and Engineers) to create custom Voice Evacuation/Mass Notification specifications that integrates with either Fire-Lite panels or any other brand of fire alarm control panel. The Engineering Specs for the ECC 50/100 panels were created to give you concise technical specifications to aid in the most straightforward to the most sophisticated projects.
