### **NFPA 2013 – Are You Ready?**

January kicked off the first in a series of webinars hosted by Fire-Lite Alarms and presented by FPE Jack Poole of Poole Fire Protection. We had over 800 people register for the one-hour webinar and the feedback has been amazing! Mr. Poole brought to light just a sample of the many changes in NFPA Codes that Life Safety Professionals (like you!) have to keep up with on a daily basis.

For those of you who were able to join, we hope you found it informative and increased your understanding of some of the changes happening in 2013. If you missed it or would like to re-watch, the recording and slides are available [online](#).

### **PS Tools Saves You Time While Complying with New Documentation Requirements!**

The Fire-Lite PS-TOOLS panel programming software is easy to use and it's FREE. The latest version (PS-TOOLS 6.1) provides you with many new formatted reports required by NFPA 72 2013 Edition Chapter 7 Documentation. The formatted reports (PDF or Microsoft Word) are the NFPA Record of Completion Report and the Inspection/Testing Report. Check our [Website](#) for some more free labor savings tools.

### **Fire-Lite Academy Training**

Fire-Lite brings the training to you with over 50 locations nationwide! We offer free hands-on training, instructed by NICET certified trainers for world-class support. CEU credits are given to all attendees that complete the courses. Check out the [2013 training schedule](#) for details and to register for a class. Or try out one of our [online courses](#) if you can't get to a Training Academy.

#### Upcoming Academies:

Cherry Hill, NJ	February 26 - 27
Chicago, IL	March 5 - 6
Tampa, FL	March 12 - 13

Already certified but need to renew? Check out the [Certificate Renewal Program](#), which allows you to easily update your training certificate for an additional three years.
