

New & Improved Website

Have you checked out the new FIRELITE.COM? It is designed to give you easier access to the fire, life safety and emergency communications tools created just for you. Whether you are searching for the right solution for your next project or looking for technical documents and videos for an installation, you can easily find all within a couple of clicks!

Some of the added features include:

- Easier accessibility to [product information](#) for system designers and inspectors
- [Data sheets](#), [manuals](#), [specifications](#), and [drawings](#)
- [Support tools](#) and [panel software](#)
- [Press room](#) with the latest press releases, case studies, and a photo library
- Access to [marketing resources](#) including brochures, sell sheets, and a video center

Visit www.firelite.com to check out the new look and to get the information you need for your next fire, life safety and emergency communications project.

Welcome Richard Conner, Marketing Director for Fire-Lite Alarms & Honeywell Power

We are pleased to announce that Richard Conner has been hired as the new Director of Marketing for Fire-Lite Alarms & Honeywell Power.

In this role, Richard will lead the strategy development and deployment for Fire-Lite & Honeywell Power, including new product development, pricing, marketing programs, sales, inventory and operations planning reviews. Richard has 15 years of experience in the fire alarm industry and has spent the last 11 years with Honeywell in various Marketing and Product Support positions.

Richard holds a Bachelors degree in Electronic Engineering from University of Hartford, Masters of Business Administration from University of New Haven, and a Graduate Certificate in International Business from University of New Haven. In addition, he is NICET Level II certified in Fire Alarm Systems.

Upcoming Webinars

Join us on Tuesday, November 19th, for our next webinar: ECC – Versatile Solution for Your Application. In the "ECC Technical Overview" webinar, we covered an overview of MNS and the Fire-Lite ECC components. In this webinar, we will take it one step further and cover basic voice system design and layout with real examples of where ECC is being used today!

Title: ECC – Versatile Solution for Your Application

Date: November 19, 2013

Time: 11:00 am – 12:00 pm (ET)
