VisorAlarm Plus IP Alarm Receiver for MIP and IPDACT modules

Overview

The VisorALARM PLUS IP receiver is Teldat's solution to manage and receive alarms from burglar and/or fire alarm panels equipped with Teldat's MIP or Fire-Lite's IPDACT IP alarm transmission modules. Each VisorALARM PLUS receiver supports up to 3,000 alarm panels and provides the industry's most advanced set of features including line supervision, 512 bit encryption and a three level redundancy system for the highest possible availability and reliability levels.
