

Product Announcement

 FIRE-LITE® ALARMS
by Honeywell

Updated PK-CD Released

October 6, 2006

Document FLPA06-10-1

Fire-Lite is pleased to announce the availability of the updated PK-CD, Version 2.1. This version contains a Windows XP and Windows 2000 compatible version of all the associated PK software programming tools. The PK-PLUS is also new on this CD and is to be used with the MS-9200UDLS V3.1 software.

All PK-Plus versions are not compatible with MS-9200UDLS V3.0. Version 3.0 panels must have their flash upgraded to version 3.1 to work with the upgraded version of PK-PLUS contained on this CD. Customers are advised to perform the panel flash upgrade prior to uploading panel data with any version of PK-Plus. Once the panel is flashed with version 3.1, the version of PK-PLUS found on version 2.1 of PK-CD can be used to upload or download panel data.

To obtain pricing and ordering information, please contact our Customer Service Department: [at 1-800-627-3473](tel:1-800-627-3473), or [contact your FireLite Regional Sales Manager.](#)

Sincerely,

Nick Martello
Fire-Lite Marketing Director
