## Distributed Audio Products Released

November 7, 2006  
Document FLPA06-11-1

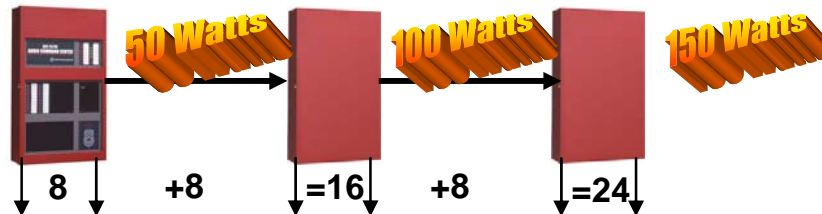

Dear Business Leader,

Local municipalities are now requiring voice evacuation in public facilities capable of holding a minimum of 300 people. To meet this demand, Fire-Lite is pleased to announce the release of the ACC-25/50DA and ACC-25/50DAZS distributed amplifier series. The ACC-25/50DA replaces the previous FC-25/50DA and can expand the master ACC-25/50 Voice Evacuation Panel up to 25 times for a total of 1300 watts. Two ACC-25/50DAZS will expand the 8 zone splitter circuits on the ACC-25/50ZS with an additional 16 circuits providing a total of 24 circuits over the three panels with a maximum of 150 watts. Both panels come from the factory with one 25 watt amplifier installed. A second one can be purchased as option to expand each distributed amplifier to 50 watts.

**ACC-25/50DA expands ACC-25/50 X 25 units or 1300 watts total.**

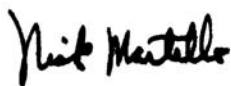

**ACC-25/50DAZS expands ACC-25/50ZS X 2 and 8 circuits each**

To obtain pricing and ordering information, please contact our Customer Service Department: at [1-800-627-3473](tel:1-800-627-3473). For more technical information go to [www.firelite.com/datasheets](http://www.firelite.com/datasheets) and download DF-52425 for the ACC-25/50DA and DF-52426 for the ACC 25/50DAZS.

Sincerely,

Nick Martello  
FireLite Marketing Director
