

Product Announcement

UPDATE! Eighth Edition Products Obsolete Effective October 31st

June 19, 2007
FLPA070601

Dear Valued Customer,

In a recent product announcement (*Bulletin FLPA070401*) Fire-Lite announced a last time buy on UL Eighth Edition product. For the past several years Fire-Lite has been preparing for the implementation of UL 864 Ninth Edition. This was to take effect June 30, 2007. On that date, fire alarm manufacturers could no longer produce 8th Edition product. UL has just announced that this date will be extended beyond the original date of June 30, 2007 to December, 2008.

Fire-Lite will now extend the last time buy on all 8th edition listed conventional products to end of July 31, 2007. All orders placed no later than July 31, 2007 are expected to ship before August 31, 2007 (subject to parts availability). All reasonable efforts will be made to fulfill these orders as long as parts exist. The anticipated first ship date for the new MS-5UD-3 and MS-10UD-7 is mid July, 2007. Customers are advised to watch www.firelite.com for the actual shipping announcement.

The following table lists Eighth Edition products and their Ninth Edition replacements.

UL 864 Eighth Edition Product	UL 864 Ninth Edition Product
MS-5012 (Obsolete July 30)	MS-5UD-3 (24 volts only)
MS-5024 (Obsolete July 30)	MS-5UD-3
MS-5024UD (Obsolete July 30)	MS-5UD-3
MS-5210UD (Obsolete July 30)	MS-10UD-7
MS-2410B (Obsolete July 30)	MS-10UD-7

Fire-Lite appreciates your cooperation during this major industry change and values your continued support of Fire-Lite. As always, please contact Fire-Lite Technical services for any detailed questions about product substitutions. Please contact your Regional Sales Manager or Fire-Lite Customer Service Representative if you have any questions regarding this announcement.

Sincerely,

Nick Martello
Fire-Lite Marketing Director
