

Fire-Lite Alarms Announces System Sensor New Audible and Visible Products

October 22, 2009
Document FLPA09-10-1

Fire-Lite Alarms is pleased to announce the availability of the following new audible / visible products and accessories from System Sensor.

Mass Notification Products

In support of the growing Mass Notification / Emergency Communication Systems market System Sensor has developed two new “ALERT” audible / visible products, SPSW-ALERT and SW-CLR-ALERT. Both are part of the *SpectrAlert Advance* line of products and are designed for use in Mass Notification systems and other non-fire applications.

New model features include:

SPSW-ALERT

- White wall mount *SpectrAlert Advance* speaker strobe
- Red “ALERT” lettering
- Amber lens
- UL 1638 Listed

SW-CLR-ALERT

- White wall mount *SpectrAlert Advance* strobe
- Red “ALERT” lettering
- Clear lens
- Meets Navy DOD requirement
- Perfect for use with System Sensor colored lens attachments (LENS-A, B, G or R)
- UL 1971 Listed

Additions to the SpectrAlert Advance Outdoor Product Line

System Sensor continues to expand their outdoor product offering to allow customers to meet the requirements of any application. All SpectrAlert Advance outdoor products are NEMA 4X rated and operate between -40°F to 151°F. New models include:

- Plain (non “FIRE” printed) outdoor models:

Model	Description
SRK-P	Red outdoor strobe, wall mount, plain
SRHK-P	Red outdoor strobe, high candela, wall mount, plain
P2RK-P	Red outdoor horn strobe, wall mount, plain
P2RHK-P	Red outdoor horn strobe, high candela, wall mount, plain
SWK-P	White outdoor strobe, wall mount, plain
SWHK-P	White outdoor strobe, high candela, wall mount, plain
P2WK-P	White outdoor horn strobe, wall mount, plain
P2WHK-P	White outdoor horn strobe, high candela, wall mount, plain
SPSWK-P	White outdoor speaker strobe, wall mount, plain
SPSRK-P	Red outdoor speaker strobe, wall mount, plain

- Outdoor horn-strobes and strobes now available in white:

Model	Description
SWK	White outdoor strobe, wall mount
SWHK	White outdoor strobe, high candela, wall mount
P2WK	White outdoor horn strobe, wall mount
P2WHK	White outdoor horn strobe, high candela, wall mount
P4WK	White outdoor horn strobe, 4 wire, wall mount
SCWK	White outdoor strobe, ceiling mount
SCWHK	White outdoor strobe, high candela, ceiling mount
PC2WK	White outdoor horn strobe, ceiling mount
PC2WHK	White outdoor horn strobe, high candela, ceiling mount
PC4WK	White outdoor horn strobe, ceiling mount, 4 wire
PC4WHK	White outdoor horn strobe, high candela, ceiling mount, 4 wire

- Replacement devices for outdoor speakers and speaker strobes (ship without weatherproof back box):

Model	Description
SPCWK-R	Replacement unit - white outdoor speaker, ceiling mount
SPRK-R	Replacement unit - red outdoor speaker, wall mount
SPWK-R	Replacement unit - white outdoor speaker, wall mount
SPSWK-R	Replacement unit - white outdoor speaker strobe, wall mount
SPSRK-R	Replacement unit - red outdoor speaker strobe, wall mount
SPSCWK-R	Replacement unit - white outdoor speaker strobe, ceiling mount
SPSCWHK-R	Replacement unit - white outdoor speaker strobe, high candela, ceiling mount

All outdoor models include an improved weatherproof back box design:

- 3/4" conduit holes (2 on top, 1 on bottom) to accommodate in-and-out wiring for daisy-chaining outdoor devices
- Two 3/4" rear knockouts to eliminate the need to drill holes
- Back box fits the shape of the device

New Synchronization Modules

The new MDL3R (red) and MDL3W (white) synchronization modules from System Sensor provide new features and benefits that enable more flexibility when designing a fire alarm system, including:

- Compatible with all System Sensor *SpectrAlert Advance* and legacy horns, chimes and strobes
- Each module can power two 3-amp circuits wired in Class B or one 3-amp circuit wired in Class A
- Multiple MDL3 modules can be synchronized using a new interconnect feature
- A new supervisory function eliminates the requirement to install the sync-circuit module within 20 feet of the fire alarm control panel.

Refer to the MDL3 datasheet <http://www.firelite.com/datasheets/df-51663.pdf> and installation manual for a complete listing of product features and specifications.

The new MDL3R and MDL3W 12/24-volt sync-circuit modules are available now and will be substituted by Customer Service for any MDL and MDLW orders received. Pricing for the new modules will remain the same as the MDL and MDLW.

Note that the new MDL3R and MDL3W will not work with MS-9200 series panels manufactured prior to 2005. If you are replacing an existing MDL or MDLW please contact your Customer Service Representative for special ordering instructions.

To obtain pricing, ordering and technical information, please contact our Customer Service/Technical Service Department: at 1-800-627-3473. For more technical information go to <http://www.firelite.com>

Sincerely,

Bill Brosig
