New & Improved Intelligent Addressable Isolator and Relay Bases Now Shipping

January 12, 2012
Document FLPA12-01-1

Dear Valued Customer,

Fire-Lite Alarms is pleased to announce the launch of the redesigned B224BI intelligent isolator base and B224RB intelligent relay base. These new bases are **easier to install** because they allow pre-wiring of the mounting plate, which can lead to a 30% reduction in installation time. Pre-wiring the mounting plate can also reduce nuisance ground faults. The cleaner aesthetic is achieved by having a flush-mounted base with a **Fire-Lite Alarms** family look. The new and improved B224BI and B224RB bases will continue to ship with the same part numbers and are backwards compatible.

| Old Model Number | Old Model Description | New Model Number | New Model Description |
|------------------|------------------------------|------------------|------------------------------|
| B224BI | 6" Intelligent Isolator Base | B224BI | 6" Intelligent Isolator Base |
| B224RB | 6" Intelligent Relay Base | B224RB | 6" Intelligent Relay Base |

The **Fire-Lite Alarms** intelligent addressable devices and bases are available at leading Security Equipment Distributors. For more information please contact Fire-Lite Alarms at www.firelite.com or Customer Service Department at: **1-800-627-3473**.
