[DH100ACDCI Ionization Duct Smoke Detector Discontinued Effective December 31, 2007](#)

November 12, 2007
Document FLPR07-11-1

Dear Valued Customer,

We have been advised by System Sensor that the **DH100ACDCI** conventional 100 Series ionization duct smoke detector is being discontinued on December 31, 2007 due to historically low sales volumes. The replacement product for this model is the **DH100ACDCLP** conventional 100 Series photoelectric duct smoke detector. In addition to the duct detector the replacement ionization detector board, **A5052-00**, will also be discontinued as of December 31, 2007.

Please anticipate any future need for the DH100ACDCI ionization duct smoke detector and place your final orders as soon as possible. All orders will be fulfilled on a first-in / first-out basis while supplies last.

We appreciate your cooperation during this transition. Please contact your Regional Sales Manager or Fire-Lite Customer Service Representative at 1-800-627-3473, if you have any questions regarding this announcement.

Thank you for your continued business.

Sincerely,

Bill Brosig
Associate Product Manager
