

Product Retirement Announcement

UDACT-F Discontinued

December 16, 2011
Document FLPR11-12-1

Dear Valued Customer,

Due to parts obsolescence, Fire-Lite Alarms is discontinuing the Eighth Edition **UDACT-F** Universal Digital Alarm Communicator Transmitter Module used on our legacy panels Sensiscan 2000, MS-9200 and MS-9600 fire alarm control panels. As you know the Sensiscan 2000, MS-9200 and MS-9600 fire alarm control panels were retired over seven years ago. We have done our best to support existing installations however there is no replacement for the **UDACT-F** Universal Digital Alarm Communicator Transmitter Module.

We will be accepting last time buys for the **UDACT-F** Universal Digital Alarm Communicator Transmitter Module through February 1, 2012, or until stock is depleted. Orders will be accepted on a first come, first serve basis as stock permits.

The following table lists products and their Ninth Edition replacements.

UL 864 Eighth Edition Product	UL 864 Ninth Edition Product *
MS-9200 with UDACT-F	MS-9200UDLS
MS-9600 with UDACT-F	MS-9600UDLS
Sensiscan 2000 with UDACT-F (Conventional Panel, 56 input/output circuits)	MS-9200UDLS/ MS-9600UDLS panel with required addressable modules

* As always, please contact Fire-Lite Technical services for any detailed questions about product substitutions. If panel replacement is not possible the **Fire-Watch 411 Series** slave Digital Alarm Communicator Transmitters are available for monitoring 3 or 4 inputs, for more information see datasheet [df-51735](#).

Please contact your Regional Sales Manager or Fire-Lite Customer Service Representative at 1-800-627-3473, if you have any questions regarding this announcement.

Thank you for your business and continued support.

Sincerely,

Bill Brosig
Fire-Lite Alarms Product Manager
