

Product Retirement Announcement

 FIRE-LITE® Alarms
by Honeywell

July 26, 2006
Document FLPR07-01

Dear Valued FIRE-LITE Distributor:

FIRE-LITE is pleased to announce the release of System Sensor's **SpectrAlert Advance** line of audible/visible (AV) notification appliances. **SpectrAlert Advance** is a complete replacement for the current SpectrAlert line of wall- and ceiling-mount horns, strobes and horn/strobes and wall-mount chimes and chime/strobes. Included with this release is a comprehensive list of the existing AV model numbers that will become obsolete cross-referenced with the new **SpectrAlert Advance** products.

SpectrAlert Advance devices are rich with features that will reduce installation times with improved aesthetics and versatility. Some of these features include:

- Universal mounting plate for both wall and ceiling installations that fits on standard backboxes.
- Plug-in design, including a shorting spring on the mounting plate for pre-installation continuity check.
- Electrical compatibility with existing SpectrAlert devices.
- Automatic 12 or 24V selection.
- Lower current draw than existing SpectrAlert devices. Wall and ceiling current draws are the same.
- Slide switch candela selection, rotary switch for tone selection (no dip switch).
- Candela selection is visible from the floor after installation
- Complete line of outdoor products that are UL-approved and are NEMA 3R rated.

Refer to the **SpectrAlert Advance** datasheets for a complete listing of product features and specifications.

The following is a summary of key dates related to this transition:

- August 1, 2006: FIRE-LITE customer service will begin quoting **SpectrAlert Advance** products for any orders that will ship on or after September 5th, 2006.
- September 5, 2006: Official launch date for **SpectrAlert Advance**. Availability of existing SpectrAlert devices will be limited to on-hand inventory. Once inventory has been depleted Customer Service will substitute any orders for the existing SpectrAlert devices with the appropriate **SpectrAlert Advance** part as indicated in the cross-reference list.
- November 5, 2006: Conversion to **SpectrAlert Advance** is complete, all existing part numbers will become obsolete.

Please evaluate the ongoing needs of your organization based on the above dates. All orders will be fulfilled on a first-in / first-out basis as supplies last. In any cases where an existing SpectrAlert product becomes unavailable before September 5th, 2006, FIRE-LITE Customer Service will contact you regarding suggested replacements. All existing SpectrAlert products will become obsolete no later than November 5th, 2006.

We appreciate your cooperation during this transition. Please contact your Regional Sales Manager or FIRE-LITE Customer Service Representative if you have any questions regarding this notice.

Sincerely,

Nick Martello
FIRE-LITE, Director of Marketing
