This two-day course on Fire-Lite's Addressable Intelligent Fire Alarm Control Panels is for individuals with relatively little experience in installing addressable fire alarm systems. The course covers the features, functions and capabilities of addressable control panels, field devices and option components. The course includes a hands-on exercise in basic keypad programming. Additional products covered are field charger power supplies and internet communications (IP Fire Communicator). *Laptops are not required for this class.*

You must attend both days in order to be eligible for a certificate of attendance.

Continuing Education Unit (CEU) credits: 1.6

Prerequisites: None

Note: This course has limited seating. Fire-Lite cannot accept registrations once the class is marked "FULL." Fire-Lite reserves the right to limit the number of attendees per company if necessary. **You MUST register online at www.firelite.com no later than Thursday, February 23rd, 2012. Registrations submitted after February 23rd will not be given pre-registered status but will be considered walk-ins.** Walk-ins are discouraged because they cannot be guaranteed a seat or training literature. Refer to www.firelite.com for the latest class status.

Fire-Lite reserves the right to cancel any class at anytime.

Please do not make Non-Refundable Reservations
