Fire-Lite Software Applications

Tuition \$200 – Click here to [Register Online](#)

This 1-day Instructor-Led Training (ILT) class offers instruction on the usage of Fire-Lite's PS-Tools - panel programming tool, Lite-Configurator - system configuration tool, Lite-Calcs - voltage drop calculation tool and PPU Wizard - panel firmware update tool.

Attendees gain practical experience by completing hands-on application exercises in the classroom phase.

Note: This is *not* a PASS/FAIL program.

Laptops are required for this class and must meet these requirements:

Operating System: Microsoft Windows XP, Windows Vista or Windows 7.

Minimum Screen Resolution: 1024 X 768 (Note: some Netbooks do not support this resolution)

Microsoft Office 2003, 2007 or 2010* (*Full version only – the "Click-To-Run" version of Microsoft Office 2010 is not compatible. Also, OpenOffice is not compatible with our software applications.)

USB Port

A programming cable will be supplied to each attendee. Lunch will be provided.

Continuing Education Unit (CEU) credits: .7

Recommended Prerequisites: Experience in installing and programming Fire-Lite Addressable systems or attendance in a 2-day Fire-Lite Systems class.

Note: This course has limited seating. Due to the requirement for pre-installing software, walk-ins and last-minute substitution of personnel cannot be permitted.

Fire-Lite reserves the right to cancel any class at anytime.
Please do not make Non-Refundable Reservations
