

## The Line-up

FIRE-LITE Alarms  
by Honeywell

# Fire-Lite® Systems & SW Academies FALL 2019 Schedule

The Fire-Lite Systems Academy is a 2-day course on Fire-Lite's Addressable Intelligent Fire Alarm Control Panels. The course covers the features, functions and capabilities of Fire-Lite's Endurance Series addressable control panels, field charger power supplies, optional components and SWIFT® wireless. The course includes a hands-on exercise using basic keypad programming.

**REGISTER TODAY!**

A separate 1-day, software applications programming course is offered the day after the above 2-day Systems Academy. This academy is optional and is for individuals interested in learning about Fire-Lite's FS-Tools and Lite Configurator software programs. There is a tuition fee of \$200 for this specific 1-day course.
