ANN-80-W Released

June 18, 2008
Document FLPA08-06-1

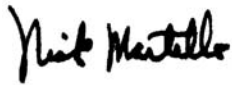

Fire-Lite is pleased to announce the availability of the ANN-80-W, 80 character LCD annunciator.

With exactly the same functions and UL-864 Ninth Edition listings as the red ANN-80 version, the ANN-80-W is designed to meet specific architectural job requirements where a white version is desired. The ANN-80-W is compatible with the MS-9050UD, MS-5UD-3 and MS-10UD-7 and all other ANN-BUS devices.

For additional product information, go to www.firelite.com and download datasheet DF-52417-b. To obtain pricing and place orders, please contact our Customer Service Department: [at 1-800-627-3473](tel:1-800-627-3473).

Sincerely,

Nick Martello
Fire-Lite Marketing Director
